

COVID-19:

Don't Let Your Guard Down!

We cannot let our guard down and lapse on the known safety and health measures that help reduce the spread of the virus. These basic health and safety considerations must be seen as paramount for maintaining layers of protection in the workplace. In this training participants will learn about five key strategies to minimize exposure to COVID-19 and how to keep yourself safe at work. Additionally, topics on creating a safe workplace, vaccination, testing and available leave if you become sick with COVID-19 will be discussed.

Objectives

- Identify safe work practices that your employer must have in place to mitigate the spread of COVID-19.
- Describe how workers can stay safe while working indoors and outdoors during the COVID-19 pandemic.
- Examine COVID-19 vaccine and booster policies that effect your workplace.
- Explain various leave policies (emergency, paid sick time, FMLA and more) available if you do test positive for COVID-19.
